

EZ Connector

EZ Connector® is a revolutionary duct connection system that can save up to 50%+ labor costs in the field! This innovative system is the first and only corner system on the market that allows the contractor to fasten a patented locking bolt using a cordless impact driver.

The teardrop shaped cut out of the corner with the proprietary bolt pull the connection together and lock it in place without the use of a nut, using a convenient cordless impact driver. Pictured above is the TDF® EZ Corner & 1" bolt.

Self-piloting screw tip of the bolt self-aligns the corners and ductwork, eliminating the need for an alignment tool and clamping. 1-1/2" bolt shown.

System Components

The components of the EZ Connector System are a proprietary bolt and TDC®/TDF® Corners. The bolt and corner work together and are easily assembled with an impact driver to allow fast operation for the installer!

EZ Connector TDC/TDF Corners

These precision engineered and stamped TDC and TDF corners can be used in automated corner crimping machines with traditional Cornermatic® Classic, Cornermatic® Combo, and the revolutionary Cornermatic® Plus™.

- EZ Corners feature a patented “teardrop” shaped hole that locks the bolt in place, eliminating the need for a nut
- Saves 50% labor in the field
- Also appropriate for manual insertion

EZ Connector Bolts

This patented bolt is specifically designed for use with EZ TDC/TDF corners. It acts as an alignment tool and a locking nut during installation when used with the teardrop EZ Corner. Available in 1-1/2" and 1" sizes.

- Patented extra high drive head bolt with built-in washer
- Features a self-piloting screw tip that aligns the corners eliminating the need for an alignment tool and duct clamping

Swivel Impact Nut Driver

The one-piece Swivel Impact Nut Driver features a built in magnet that keeps the EZ Connector Bolts securely in place during assembly. The head swivels for added flexibility into tight spaces. Sold separately.
