

# J SYSTEM

Flange is designed to strengthen the duct wall and connect duct sections together. All Duro Dyne Dyn-O-Mate J Flange is furnished with an **integrated sealant pocket** for a secure air tight fit and **meets SMACNA** rigidity class J for transverse joints (steel). Bundles of 20ft. lengths are available **only** with a Full Truckload order and most styles are available in **specialty metals**. All Dyn-O-Mate Corners in the J System are a skid qty of 48 boxes.

## J SPEED CORNER J Style (12 gauge)

- Speed Corners have tapered coined corner tips for fast/easy hand insertion into the Flange eliminating the need for a tinner's hammer.
- Speed Corners are formed from galvanized G 60 or better 12ga USA made steel. For use with J Flange.
- Opposing size alignment holes for aligning flange or optionally making connections using a standard 10x3/4 Pro Point screw.
- Nuts and Bolts are **also** sold separately.

Item #	Code	Description	Packaging
21094	DDJS	J Speed Corner	250/Box
21095	DDJSNB	J Speed Corner <b>with 3/8" Nuts &amp; Bolts</b>	250/Box

## QUAD CORNER J Style (12 gauge)

- Versatile corners that eliminates the need to stock multiple corners!
- Compatible with Dyn-O-Mate® J, Ductmate™ 35, CL Ward™ J, Ward Industries™ J, and Hardcast™ flanges, TDC & TDF connections.
- 16 gauge - The unique design of this corner results in performance like that expected from heavier gauge, but at a lower cost.
- Other materials available upon request.

Item #	Code	Description	Packaging
21270	DDEJ	Quad Corner	250/Box
21277	DDEJ-AL	Aluminum J Quad Corner	250/Box
